He never grieved me; tender, kind, Stro. 2, loving; full of hope and grace; My life was in his own entwined; My heart but mirrored back his face. With stern resolve he seeks the foe;— His country calls him; let him go !

How often I have sat beside Him sleeping; clustering 'round his head Those rich, brown looks, my praise, my prid And now the earth must be his bed. 'Tis wrong to grieve for this, I know, His country calls him; let him go!

Ab, in how many hearts this strife
Is waged in prayer, by prayer is won;
There is the wood, the fire, the knife.
And for the sacrifice—our son!
"Twould kill me if he fell; but, no!
His country calls him; let him go!

For God, who gave our land, so blest, Would have us guard it—heart and home live up their best at such behest; The gulf was closed, in heathen Rome, With one young warrier—weal or wee, With one young warrior went or w His country calls him; let him go!

#### FLAX AND HEMP. NEW MODES OF PREPARATION, AND NEW USES FOR

The new modes of preparing these articles, and the important uses (new and old) to which the product is applicable, indicate the propriety of immediate attention to the subject, in all its bearings. Intelligent farmers, especially little fertile West, may largely promote their we interests and the public welfare by consider a temperature of the matter fully and quickly. Preparations in next year's crops should be made with reference to an increase of the crops of both ancies, where the soil and other considerall are favorable, especially on the western paries, where corn, the present leading scaple ries, where corn, the present leading scaple at low prices, for want of adequate and the transit to sea-board markets. Our remarks these subjects have produced much laquiry these subjects have produced much liquity the regions above mentioned, in reply to a of which we may state that the American F. Company, composed of prominent men. pasted for promoting the new preparations muses of flax and hemp—for the new promise applicable to both articles—will estable works, wherever the requisite supplies of material and other facilities can be obtain

material and other factities can be foliated. Three considerations are pre-requisite for the establishments: First, a cheap supply of a stak of flax and hemp; second, adequate wat supplies for the preparation; and third, full times, by rail or water, for cheap transport The company will co-operate with resident in suitable localities for making establishment for the above-named purposes, being desirt of having the farmers and other business in become interested pecuniarily in the prepara-tion, as well as in raising and trading in the raw material.

Applicants for such establishments should state in their letters:
1. The rate at which flax straw can be bouger ton of 2,000 lbs., for cash on delivery certain suitable points on railroads, or on an als, lakes, or navigable rivers. The strat need not be pulled, but may be cat like he or grain, the farmer threshing out the seed to be seen a road;

his own profit. 2. The price wanted for flax straw in sheaves, bundled like grain, and also for i. in a rough and crumpled state, like straw from threshing

3. Whether there is a good supply of water not for water power, but for the treatment of the flax straw in the new mode sufficient water, say, to keep a six inch pipe running; and also whether the water is soft or liney.

4. The facilities and cost of transportation.

and the condition of the neighborhood where such establishment may be desired.

Some of the prosperous colonies, like that at Galea, Illinois, may largely and quickly promptly acting in this matter. Feeling a despiratory of the promptly acting in this matter. Feeling a despiratory of the promptly acting an enterprise so into a interest in promoting an enterprise so imp rant—one which opens new fields for profitable farming industry and commercial enterprise and knowing also the high public and private character of the gentlemen controlling the American Flax Company in this city and State, we freely contribute our share of labor 1. public attention to the subject -- No York World.

### The Passport System Abroad.

Accounts from Europe continue to rec-e approaching total abelition of passpo Our correspondent writes from Germany "In a recent Journey from Russia, by west of Sweden, Nerway, Deomark, England, Br giam Hollard, the Free Cities, France Pru-sia, and the various minor German States. was not once asked for a passport, and the old annoying passport system may be considered as practically aboli-hed in all those countrie. By royal decrees it is officially abolished to Holland and Sweden; and it is reported that no less a personage than the Grand Luma of Thibet has issued a similar decree respecting his dominions, while the King of Stam bas po-itively done the same. Even Russia, and equally exclusive Austria, have abated their rigor i this respect, and travellers from other parts Germany frequently cross the Austrian in tier and go to Vienna without the once esset Naples to Milan unchallenged, excepting a the States of the Church, while three years ag it was necessary to have the Sardinian, the Neapolitan, the Papal, the Modeness, and the Parmesan vises for a similar Italian trip.

The extension of railroads has been to chief instrument in the abolition of passport-but the attempt to assassinate the Frence Em-peror in 1857, was a terrible blow to the of system; for Orsini, Pierry, and Rudis had pass-ports perfectly en regle, and thus the inability of the system to keep out of the country the most dangerous man was clearly proved. Almost dangerous man was clearly proved. At ready Europeans talk of passports as a defuse bumung, and in a few years they will, in se-probability, he utterly things of the past."

FOR THE CURE OF

DYSPEPSIA, INDIGESTION Weakness or Debility, Flatulency and Nauser Loss of Appetite, Nervousness, Liver Com-plaints, Bilious Fevers, and all Disease-of the Stomach, Liver, and Bowels.

PREVENTIVE FOR FEVER AND AGGS HESE BITTERS ARE NOT EQUALLES A . N. PRESSINT, Providence Voters

vent disease, or to assist Nature in restoring action, and that medicine is certainly the best which will perform these offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condi-tion alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or ex-citing the organs into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of a nervous energy more disastrous than though Nature had been left to

take its own course. Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fleids in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its use fulness is being generally acknowledged by the largely increasing consumption in those sections where it is best known, and by the testi-mony of many eminent physicians, who nave not only made trial of it, but continual prescribe the Bitters in those cases for which it is recommended.

AGED PEOPLE, AND ALL WEAKLY

PERSONS. consumptive patients, and others, whose constitutions have become impared by time, or en-feebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best knewn

DELICATE LADIES Will derive great benefit from it. No unpleasant effect will ever result from taking the Bitters, if the directions are followed. For these who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weak-

ness, the Bitters are not equalled. As an agreeable stomachic, it is much admired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an attack of FEVER and AGUE, or DIARRHCEA. Of all the ills that afflict men and women, few

are so agenizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Da. Gazzley, a specific has now

GREELEY'S BOURSON BITTERS, take them regular-ly, and our word for it you will feel better, live longer, be stronger, and think and act with very much more satisfaction. The Bitters are a tonic, and of a nature never before attained in any medicine. It will make the weak strong, the desponding hopeful, the sick well. For any complaint of the Stomach, Liver, or Bowels, there is nothing comparable with this medicine. In America, the Liver is the best abused of all the organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly inoperative. This need not be; on the con-trary, it is quite unnecessary. A little common sense, and a sufficiency of GREELEY'S BOURSON BITTERS, will keep the Liver right, and make man a man, and woman, now miserable, quite happy. The Bitters regulate and strengthen

the Liver, no less than purify it. The increase of Nervous Disorders, at the present day, is one of the most alarming indications of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a phase of nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most moient manner. All who are unfortunately afflicted with complaints of this nature, or with indigestion, or any diseases of the Stomach, should not fail to make use of GREELET'S BOUR-

BON BITTERS. Chills and Fever. In many portions of the United States, this terrible disease seizes its victims as naturally as water seeks its level. The system, in a particular condition, invites it. The right medicine to prevent and cure this mainty, we unhesitatingly say, is Gazzar's Bounnon Birrans. It breaks up drives it from the system, and will keep it at bay, if taken in accordance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the constitution. As an agreeable tonic, these Bitters have no equal.

have no equal.

Greeley's Bourbon Bitters are meeting a sale unparalleled in the history of popular medicines. In all discusses of the Stomach and Bowels they are a sovereign cure. The worst cases of Dyspepsia and Indigestion yield to the remarkable potency of the Bitters, which is as agreeable to the tasle as it is speedy and unfalling in its good effects.

For sale by Druggists and Grocers, everywhere. W. F. & A. W. GREELEY, Preprietors, Boston, Mass. And sold by D. B. CLARK, S. B. WAITE, and J. B. WILSON, Washington, D. C., and PEEL & STEVENS, Alexandria, Va.
